
CHRIS ETGES

Full Stack Developer who is local to the Denver Metro area and is available for hire immediately. I am eager to learn, solve problems and build lasting relationships with a great development team in order to deliver the highest quality products. Expert in web markup and advanced in Javascript application development, with experience building beautiful UI/UX frontend, backend node.js libraries and database layers. Since completing a certificate program in full stack development from the University of Denver, I have been developing several concurrent freelance projects and bolstering my skillset.

PROJECTS

SUCH GOOD HELPERS – 2019 - [HTTPS://GITHUB.COM/CETGES86/VOLUNTEER-APP](https://github.com/CETGES86/VOLUNTEER-APP)

Portal for teachers to request volunteer help from parents of students to be used by local PTA and elementary school. Being built as a solo project for an associate, with a frontend built using React.js, backend with node/Express, and mongoDb for database. Still in late stages of development.

ETGESMUSIC.COM - 2019

Web page built on React.js with custom CSS and CSS grid frontend, with Express/node backend.

YEARBOOK() - [HTTPS://AVIATO-YEARBOOK.HEROKUAPP.COM/](https://aviato-yearbook.herokuapp.com/)

Networking and social platform for Bootcamp graduates. Offers job search tools, continuing education, and contact links for fellow students. Built mostly solo with time constraints with React.js for the front end and node/express/mongoDb for backend and database.

GO FOOD YOURSELF - [HTTPS://GO-FOOD-YOURSELF.HEROKUAPP.COM/](https://go-food-yourself.herokuapp.com/)

Full stacks application built in a team of four using mySQL database that searches recipes based on ingredients selected by user. Front-end built on jQuery and materialize.css framework, backend with node/Express.

WORK EXPERIENCE

FREELANCE FULL STACK DEVELOPER - CHRISSETGES.ME/ - JULY 2018 - PRESENT

- Develop and build functional web page applications with clean, scalable code for respective clients.
- Deploy and maintain code as needed. Meet and discuss needs with client for feedback and requests for future development.
- Implemented user interface guidelines and standards throughout the development and maintenance of the website using DHTML, HTML5, CSS3, and Javascript.
- Built web pages that are more user-interactive and mobile responsive using React, jQuery, CSS Grid, RESTful API services and Javascript.

CONTRIBUTING DEVELOPER - TRAILSOFFROAD.COM - 2018

- Assisting CTO with everything from HTML mailers to backend and DB work as needed.
