Christopher Etges

(303) 518 - 2933   c.etges86@gmail.com   Centennial, CO
github.com/cetges86   linkedin.com/in/chrisetges/   chrisetges.me/

Full Stack Developer motivated to contribute and develop skills after completing University of Denver Bootcamp. Fluent in Javascript, HTML5, CSS3, Node, RESTful APIs, MySQL, Mongo and developing skills in React, Redux, SCSS/LESS, CSS Grid, and testing frameworks such as Mocha/Chai. Always curious and eager to learn, problem solve and build relationships with a great development team.

APPLICATIONS BUILT

YEARBOOK() - 2018 - HTTPS://AVIATO-YEARBOOK.HEROKUAPP.COM/
- Constructed networking/social platform for bootcamp graduates. Offers job search tools, continuing education, and contact links for fellow students.
- Built with React for front-end, Express/Node for backend with a Mongo db with user authentication done with Passportjs.

GO FOOD YOURSELF - 2018 - HTTPS://GO-FOOD-YOURSELF.HEROKUAPP.COM/
- Full stack application that will search recipes based on ingredients supplied by users.
- Built mySQL database of ingredients and recipes with Sequelize to create models. Front-end UI built with JS/jQuery/Materialize, with Node/Express building out the backend

NITEOWL NIGHT PLANNER - 2018 - CETGES86.GITHUB.IO/NITEOWL-NIGHT-PLANNER/
- A wizard-style event planner based on a user's location. Uses multiple APIs to pull local restaurant, brewery, and movie information.
- Used jQuery for DOM manipulation, materialize.css for CSS framework, and email.js for email templates, Ajax for API calls
